### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James McKeown on September 7, 2007.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Figures 6 (a), 6 (b) and 6 (c) the lead lines with no reference will be removed.

Figure 6 (c) will add reference 172 to the lead line.

Figure 7 (b) will add reference 27 to the lead line.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is the inclusion of the limitation **"a first group of rollers being operatively attached on traveling carriages for moving the at least one expansion element out of or into the unit along the tracks, and a second group of rollers being operatively attached on the traveling carriages with a cable of the cable winch for lifting and lowering the at least one expansion element,**

**wherein the traveling carriages are slidably positioned in the tracks via the first group of rollers, and guided in the tracks via the first group of rollers.”**

Applicant's invention is considered to be a unit with two side walls and two expansion elements.

The limitation “at least one side wall” is interpreted to mean “two side walls”, each side wall associated with an expansion element, as recited in lines: 11 and 19 of claim 1, line 7 of claim 2, line 3 of claim 8, and line 3 of claim 11.

In claim 1, line 15, the limitation “the floor wall” is interpreted to mean “the floor” previously recited in line 6.

In claim 2, line 5, the limitation “a lifting device” is interpreted to mean “the lifting device” previously recited in claim 1, line 12.

In claim 7, line 3, the limitation “two cables secured with one of two expansion elements” is interpreted to mean “two cables each secured with one of the two expansion elements”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

3. Claims 1, 2, 6-20 are allowable. The restriction requirement between Species 1 and Species 2, as set forth in the Office action mailed on 03/21/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to

MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 11 and 12, directed to Species 1, Figures 6a-6c are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
